

ABSTRACT

B<sup>1</sup>  
An ink jet printer including a carriage which moves along a print area, a head mounted on the carriage, an ink cartridge mounted on the carriage for supplying ink to the head, a lever on the carriage for mounting or demounting the ink cartridge with respect to the carriage and a stopper for stopping the movement of the carriage by coming into contact with the lever when an operation of mounting the ink cartridge by the lever has not been completely effected. The ink jet printer may also include a resilient member for supporting the ink cartridge on the carriage. ✓

REMARKS

7  
In view of the above amendatory matter and the remarks to follow, early and favorable action on the subject application is respectfully requested.

This application is a divisional application under 37 C.F.R. § 1.60 of parent application Serial No. 08/119,012, entitled PRINTER, filed on September 9, 1993, and currently pending.

Originally filed claims 1-28 and 35 have been cancelled in the Request for Filing Divisional Application. Claims 29-34 are presented herein for examination. Please note that the correct inventors of the subject matter of claims 29-34 are identified in the accompanying Request.

Applicants respectfully submit that amendments to the title and the Abstract of the Disclosure presented herein do not add new matter and entry thereof is respectfully requested.

Applicants also respectfully submit the annexed Information Disclosure Citation Form (PTO-1449) pursuant to 37
